

Day	Lesson Focus	6KB	6CK	6LK	6SD
1	Introductions; writing sample for academic integrity SWBAT: complete a 'get to know me' writing page How: fill out a form provided in class Why: Academic integrity reference Links: N/A	1/26	1/26	8/19	Jan
2	Introduction to Bricklink studio, Moodle SWBAT: Complete tutorial in Studio, open Moodle for exit ticket How: Follow tutorial steps in Studio, provide easy instructions for extension Why: Important to learn where to find resources and tasks Links: N/A	1/27	1/29	8/20	Jan
3	Bricklink Studio building with instructions SWBAT: Assemble an official Lego set in Studio How: Download provided instructions to build along Why: Helps to learn typical Lego construction as well as where to find pieces Links: Instructions.	1/28	2/2	8/29	TBD
4	Bricklink Studio guided lesson 2: Building a six sided die SWBAT: Flip pieces around and manipulate them with shortcuts How: They follow the teacher for each step Why: Core Studio and 3D skills Links: Instructions.	1/29	2/3	8/30	TBD
5	Bricklink Studio building projects SWBAT: follow instructions to build sets How: Download provided instructions to build along Why: Helps to learn typical Lego construction as well as where to find pieces Links: Instructions.	1/30	2/4	8/31	TBD
6	Bricklink Studio building projects: add rendering and special colors SWBAT: follow instructions to build sets How: provide instructions to students Why: introduce rendering	2/9	2/9	9/1	TBD

Links: [Instructions](#), [Studio references](#)

7	Bricklink Studio guided lesson 5: Part Designer (Custom pieces) SWBAT: build custom pieces in part designer How: use part designer and follow teacher example Why: Discover how to add totally custom pieces to their work Links: Instructions , Studio references	2/10	2/12	9/2	TBD
8	Introduce Criteria A: Formative Research Task SWBAT: identify elements on Lego website How: complete a provided example research task Why: Learn skills to be used on SA Links: N/A	2/11	3/2	9/14	TBD
9	Criteria A: Summative Introduction SWBAT: Understand what tasks will be completed during assessment How: work through SA with students Why: Prepare them to succeed at SA Links: Criteria A assessment	2/12	3/3	9/15	TBD
10	Criteria A: Research Tasks Day 1 SWBAT: choose a Lego set to explore How: Use Lego website or Bricklink Studio to find a set Why: Learn what to do in assessment Links: Brickipedia , Lego.com , Criteria A assessment	2/13	3/4	9/16	TBD
11	Criteria A: Research Tasks Day 2 SWBAT: Complete analysis for 4 different sets How: Find sets that will help inspire your work Why: Determine project direction Links: Brickipedia , Lego.com , Criteria A assessment	3/9	3/9	9/17	TBD

12	Criteria A due at end of class SWBAT: Complete their paper assessment for research How: Finish their research tasks Why: Prepares them to move into planning Links: Brickipedia, Lego.com, Criteria A assessment	3/10	3/12	9/18	TBD
13	Design Challenge: Build a set from images SWBAT: create as much of a set as possible from images How: provide image references but no instructions Why: Useful to gauge piece recognition Links: Brickipedia, Lego.com,	3/11	3/16	9/29	TBD
14	Introducing Criteria B: Formative Planning Task SWBAT: engage with ideas from the assessment How: create specifications and success criteria for a sample project Why: prepares students for criteria B assessment Links: N/A	3/12	3/17	9/30	TBD
15	Criteria B: Summative Introduction SWBAT: begin working on their planning assessment How: Use Canva assessment Why: Develop individual specifications for project Links: Assessment B in OneDrive	3/13	3/18	10/1	TBD
16	Criteria B: Planning Tasks Day 1 SWBAT: complete success criteria How: refer to sample criteria and prepare their own Why: establish individual criteria for their set Links: Assessment B in OneDrive	3/23	3/23	10/2	TBD
17	Criteria B: Planning Tasks Day 2 SWBAT: complete inspiration page How: Use images from Lego or Brickipedia	3/24	3/26	10/3	TBD

	Why: Help identify pieces and construction methods				
	Links: Assessment B in OneDrive				
18	Criteria B: Planning Tasks Day 3	3/25	4/6	10/14	TBD
	SWBAT: Work on rough draft				
	How: Use studio to build out ideas				
	Why: Hands on with methods and pieces				
	Links: Assessment B in OneDrive				
19	Criteria B: Planning Tasks Day 4	3/26	4/7	10/15	TBD
	SWBAT: continue rough draft of parts of their set				
	How: Use studio to build out ideas				
	Why: Hands on with methods and pieces				
	Links: Assessment B in OneDrive				
20	Criteria B due at end of class	3/27	4/8	10/16	TBD
	SWBAT: complete design specifications				
	How: Use canva to finish the work, rough draft in Studio				
	Why: Ensures all elements are in place for C				
	Links: Assessment B in OneDrive				
22	Introduce Criteria C: Formative Rendering Tasks	4/13	4/13		TBD
	SWBAT: complete renders that attempt to match specific images				
	How: provide image references and test their recall of rendering				
	Why: necessary to produce attractive box designs			10/17	
	Links: N/A - produce in studio or use a real Lego set				
23	Criteria C: Summative Creating Tasks Day 1	4/14	4/16	10/18	TBD
	SWBAT: Start building their Lego set in Studio				
	How: Documenting changes, sharing images, and piecing together a set				
	Why: Teaches 'showing their work', and proceeding thoughtfully				
	Links: Canva link				

24	Criteria C: Creating Tasks Day 2	4/15	4/20	TBD
	SWBAT: Continue building Lego set in Studio			
	How: Documenting changes, sharing images, and piecing together a set			10/28
	Why: Slowing down and learning the build process			
	Links: Canva link			
25	Criteria C: Creating Tasks Day 3	4/16	4/21	TBD
	SWBAT: Continue building their set			
	How: Documenting changes, sharing images, and piecing together a set			10/29
	Why: Continued build process			
	Links: Canva link			
26	Criteria C: Creating Tasks Day 4	4/17	4/22	TBD
	SWBAT: Continue building their set			
	How: Documenting changes, sharing images, and piecing together a set			10/30
	Why: Continued build process			
	Links: Canva link			
27	Criteria C: Creating Tasks Day 5	4/27	4/27	TBD
	SWBAT: Continue building their set			
	How: Documenting changes, sharing images, and piecing together a set			10/31
	Why: Continued build process			
	Links: Canva link			
28	Criteria C: Creating Tasks Day 6	4/28	4/30	TBD
	SWBAT: Continue building their set			
	How: Documenting changes, sharing images, and piecing together a set			11/1
	Why: Continued build process			
	Links: Canva link , Box design template			
29	Criteria C: Creating Tasks Day 7	4/29	5/5	11/10 TBD

SWBAT: Continue building their set

How: Documenting changes, sharing images, and piecing together a set

Why: Continued build process

Links: [Canva link](#), [Box design template](#)

30	Criteria C: Creating Tasks Day 8	4/30	5/6	11/11	TBD
	SWBAT: Begin rendering work for their box design				
	How: Documenting changes, sharing images, and piecing together a set				
	Why: Moving rough project to finished state				
	Links: Canva link , Box design template				
31	Criteria C: Creating Tasks Day 9	5/11	5/11	11/12	11/25
	SWBAT: complete renders for box design, create instructions				
	How: use render tool in studio				
	Why: Moving project to completed state				
	Links: Canva link , Box design template				
32	Criteria C due at end of class	5/12	5/14	11/13	11/3
	SWBAT: finish all parts of criteria C assessment				
	How: Complete work in studio				
	Why: Ensure tasks for all criteria are complete				
	Links: Canva link , Box design template				
33	Criteria C polishing up projects 1	5/13	5/18	11/14	TBD
	SWBAT: revise work before presenting to others				
	How: Studio, box design template				
	Why: Ensure work is quality for others				
	Links: Canva link , Box design template				
34	Criteria C: Polishing projects day 2	5/14	5/19	11/24	11/11
	SWBAT: revise work before presenting to others				
	How: Studio, box design template				
	Why: Ensure work is quality for others				

Links: [Canva link](#), [Box design template](#)

35	Criteria D: Summative Evaluating Day 1 SWBAT: Choose testing methods for their work How: Use created interview question site Why: qualitative questions will help students gather useful data Links: Question helper , Criteria D assessment	5/15	5/20	11/25	TBD
36	Criteria D: Evaluating Summative Day 2 SWBAT: Interview people at school to collect data How: Walk around in groups and present work to others Why: Important to learn how to interview and collect feedback Links: Criteria D assessment	5/25	5/25		TBD
37	Criteria D: Evaluating Summative Day 3 SWBAT: assess their work based on success criteria How: Review their personal success criteria and respond to them Why: They need to answer whether they followed their own guidelines Links: Criteria D assessment	5/26	5/28	11/28	TBD
38	Criteria D due at end of class SWBAT: identify improvements they can make and critically evaluate the set How: Finish part 3 and 4 of the assessment Why: Part of design cycle Links: Criteria D assessment	5/27	6/1	12/1	12/16
39	Final Revisions Day 1 SWBAT: students incorporate feedback and evaluated info into designs How: Revisions based on Criteria D Why: Completing the design cycle Links: Criteria D assessment	5/28	6/2	12/4	1/21
40	Final Revisions Day 2	5/29	6/3		

SWBAT: students incorporate feedback and evaluated info into designs

How: Revisions based on Criteria D

Why: Completing the design cycle

Links: [Criteria D assessment](#)

41	Final Revisions Day 3 – upload at end of class	6/8	6/8
----	--	-----	-----

SWBAT: students incorporate feedback and evaluated info into designs

How: Revisions based on Criteria D

Why: Completing the design cycle

Links: [Criteria D assessment](#)

42	Design Challenges	6/9	6/11
----	-------------------	-----	------

43		6/10	6/15
----	--	------	------

44		6/11	6/16
----	--	------	------

		6/12	6/17
--	--	------	------
